BAR02 - ALBEROBELLO

**CULTUUR EN
GESCHIEDENIS**

Leave the port of Bari for a scenic 1-hour coach ride through the Italian countryside to Alberobello, a town in the Apulia region that forms the top of the heel of the boot of Italy. Thanks to its distinctive mortarless round stone houses with conical roofs, known as trulli, the town was added to the list of UNESCO World Heritage sites in 1996. Your tour includes a guided walk through the delightful streets of this most unusual village - plus a visit to St. Antonio, the only trullo church in the world. Many of these trullo houses are topped by a so-called pinnacolo - a sort of white cap or sphere - and all of them have curious symbols, possibly good-luck charms, painted on the roofs. If there is time, you will also go on a short sightseeing tour of Bari by coach before you return to the port and your ship. Please note: this tour is not suitable for guests using a wheelchair.

BAR04 - THE SASSI IN MATERA

WONDERLIJKE
NATUUR

Enjoy a 1-hour drive to Matera, the city of the weird and wonderful Sassi, caves and the first town in the world to be declared a UNESCO World Heritage site. These caves were inhabited from the Neolithic times right up until 1952. Perhaps because of its unique and tangible history, the atmosphere here is extraordinary and the place exudes a mystic air. We will either visit a furnished Sassi cave museum house and one rocky church that are symbol of the local culture. Many film directors have chosen to set films in Matera, as it is such an evocative place and Mel Gibson's controversial film, The Passion of the Christ, was shot here. Please note: guests will meet guides in Matera; the bus drive is unguided. This tour is not suitable for passengers with walking difficulties or using a wheelchair; long periods of walking.

BAR07 - THE CAVES OF CASTELLANA & POLIGNANO A MARE

WONDERLIJKE
NATUUR

Leave the port for an hour's drive to the Caves of Castellana where we will meet our guide for a fantastic subterranean journey through the cave complex. The caves were first explored in 1938, although their existence had been known since the XVIII century. At 60 metres deep, marvel at the cave chambers and the myriad of alabaster stalagmites and stalactites encrusted with calcite crystals. Back above ground we will travel on to Polignano a Mare, a lovely town perched high on a rock with wonderful views over the sea. You may choose a guided tour of the village or to explore the whitewashed streets on your own, meandering under the flowered arches and enjoying the hillside terrace that overlook the sea. Please note: excursion not recommended for guests who are claustrophobic or with walking difficulties. The itinerary inside the caves is on uneven, slippery path.

SPECIALE
EXCURSIE

About a 1-hour coach drive up the coast from the port of Bari lies the pretty harbour town of Trani, your destination on this enjoyable tour, which combines a sightseeing leg with a chance to sample some of the delicious locally produced olive oil. Trani's long and rich history, which dates back to its 9th-century foundation, is still prominent in the town to this day. As you make your way around the town's history trail, your first stop will be Svevo Castle, an imposing 13th-century fortification of highly rectilinear construction that overlooks the sea. You will have some time to spend at your leisure before you continue on to the 11th-/12th-century Cathedral of San Nicola Pellegrino. Built in honour of San Nicola the Pilgrim, this magnificent Romanesque-style building is a real treasure, with the stunning stained-glass windows, the remains of a 12th-century mosaic floor and the transversal crypt dedicated to San Nicola particularly worthy of mention. The sightseeing leg of the tour ends with a refreshing walk along the seafront promenade before the coach then takes you to an old oil mill for an informative visit and a chance to tantalise your taste buds with some of the wonderful locally produced olive oil and other typically Puglian delicacies. Your return to the port and your ship ends the tour. GESCHIEDENIS

Spend a few hours off the ship and follow the trail of ancient Olympians on this fascinating tour to the archaeological remains of Olympia, only a short coach drive from Katakolon. Ancient Olympia is the town that gave rise to, hosted the Olympic Games in classical times, and is still the place where the Olympic torch is lit for our modern-day Summer Olympics, which were reinstated in 1896. Although Ancient Olympia was already re-discovered in 1766, excavation work only began in 1829 and responsibility for the site then passed to the "German Archaeological Institute at Athens" in 1870. Your trip around this UNESCO World Heritage Site will give you a chance to see the ruins of the Temple of Zeus, the gymnasium, the hippodrome and the stadium, which was designed to hold up to 40.000 spectators. The tour also includes a visit to the Archaeological Museum of Olympia, which was opened in 1982 and is home to an astounding collection of artifacts found in the course of excavation work. Among the museum's most notable exhibits are particularly fine collections of beautifully detailed sculptures and bronzes as well as numerous terracotta artifacts and mosaics. The complex also includes a book and souvenir shop, which you may also like to visit. Your Olympic tour ends with a scenic return drive to the port and your ship. Designed to give you a taste of ancient Greece, this tour takes you inland from the port of Katakolon to the site of ancient Olympia, which was excavated by a team of German archaeologists in the 19th-century, yielding a wealth of historical artefacts. Greek mythology has it that Zeus, the king of the Greek gods, built Olympia. Your tour around the archaeological site will take you past the ruins of the Temple of Zeus, the gymnasium, the hippodrome and the stadium, which held up to 40.000 spectators quite a crowd even by modern-day standards. To round off your "Olympic" experience, you will also have a snack and watch a typical Greek folklore show in a pleasant restaurant in Olympia. The tour ends with your return to the port of Katakolon and your ship. Please note: this tour includes walking over uneven surfaces. The tour is not available to guests who use a wheelchair; guests of limited mobility are requested to evaluate their personal level of stamina and ability before taking part.

JTR04 - THE ARCHAEOLOGICAL SITE OF AKROTIRI

CULTUUR EN
GESCHIEDENIS

Popular as a tourist destination due to its lovely beaches, relaxed atmosphere and wonderful weather, the beautiful Greek island of Santorini is also known for the ancient city of Akrotiri, which is situated at the southern end of the island and forms the destination of this half-day tour. A tender will first take you on the quick ride from the ship to Athinios port, from where you will continue on an approx. 20-minute coach ride to ancient Akrotiri. Once a thriving settlement during the Minoan Bronze Age, the town was buried by a tremendous volcanic eruption in the middle of the second millennium B.C.. The cloak of lava and ash that descended on the settlement served to preserve the site, which includes pristine frescoes, pottery, furniture, an advanced drainage system and even some three-storey buildings, all of which have been uncovered since excavation work began in 1967. The 1.5-hour stay at this Minoan settlement will give you plenty of time to have a good look around and soak up the special atmosphere of this prehistoric location. The visit will be followed by a little bit of free time to visit the nearby modern village of Akrotiri, after which you will head for the village of Fira where your guide will tell you how to take the cable car down the port to catch the tender back to your ship. Please note: there may be long queues at the cable car station or to pick up the tender boat. This tour includes tender embarkation/disembarkation and walking on cobblestone streets with steps so is not suitable for guests with walking difficulties or using a wheelchair.

JTR05 - BEST OF SANTORINI

CULTUUR EN
GESCHIEDENIS

Exciting, exclusive, edifying: three attributes that not only aptly describe this tour, but also the Greek island of Santorini itself, which was created when the crater left by a huge volcanic eruption collapsed, leaving only the rim, a so-called caldera. After a short boat ride to Athinios port, you will continue by coach to explore the island's history, capital and dramatic landscape. First up is ancient Akrotiri, a town that flourished during the Minoan Bronze Age, but then fell victim to a major volcanic outbreak that covered it ash in the middle of the 2nd millennium B.C.. Since excavation work began in 1967, many extremely well preserved artefacts have been uncovered, including frescoes and even some three-storey buildings. You will have about 1.5 hours to enjoy this prehistoric site before you move on to Fira, Santorini's capital, for more free time to spend as you please. The pretty lanes are fun to walk down, the cafés great for a pit-stop and the views of the Kamenis, twin volcanic islets in the bay, spectacular. Last up is Oia, a blue-and-white village in Cycladic style perched on the very edge of the caldera. After a guided walk through its pretty cobbled streets, a stop at a local winery will give you a chance to sample some local treats and take part in a wine-tasting session before a minivan takes you to Athinios port where a motorboat awaits to take you back to the ship. Please note: as this tour involves getting on and off a tender (boat) plus some walking on cobbled streets with steps, it is unsuitable for guests with mobility problems or using a wheelchair. Guests aboard MSC Sinfonia will not stop in Fira; for this vessel, the tour will last approx. 5.5 hours. There may be some queues at the parking area to take the small vans to the port and to embark on the motorboat back to the ship.

PIR02 - PLAKA, ACROPOLIS & ARCHAEOLOGICAL MUSEUM

**CULTUUR EN
GESCHIEDENIS**

Situated only a short distance from Athens, the port of Piraeus makes a perfect starting point for a visit to the Greek capital and, of course, the world-famous Acropolis, an ancient citadel that sits atop a rocky hill that rises 150 metres above the city in the Attica Basin. This UNESCO World Heritage Site is not only home to the archaeological remains of several ancient buildings, but also the location of the amazing Parthenon, the symbol of Athens. Built between 447 and 432 B.C., the Parthenon temple was originally dedicated to the Greek goddess Athena, was then converted to a Christian church in honour of the Virgin Mary in the 5th century A.D. and was finally turned into a mosque, for which a minaret was added to the complex, in the 15th century. Today, the Parthenon is widely seen to be an abiding symbol of ancient Greece and as the birthplace of modern democracy. To save your feet, the scenic tour will take you to see all the main attractions of this profoundly historic city from the comfort of a modern coach. You will have time to visit the amazing National Archaeological Museum - an archive of rare artefacts that knows no rival - and the meticulously restored old part of Athens, the so-called Plaka district. The beautiful old buildings in Neoclassical style, narrow lanes and archaeological remains that characterise the district give the place an old-world feel that is sure to capture your imagination. Your tour ends with your return to Piraeus and your ship. Please note: the tour includes a long, sometimes challenging walk on even uneven ground so not suitable for guests with walking difficulties or using a wheelchair.

PIR03 - CORINTH CANAL BY BOAT

**PANORAMISCHE
RONDRIT**

Leave the port of Piraeus and enjoy a 1.5-hour drive by coach through the Greek countryside to Corinth Canal, where a short stop will be made to observe the boats that will very likely be passing through the narrow waterway. Separating the Peloponnese peninsula from the Greek mainland, the canal is 6.4 km in length, only 21.3 metres in width and was dug at sea level, which removed the need to build additional locks along its course. After swapping your coach for a small boat, you will embark on a leisurely and enjoyable trip along the canal. The steep embankments of the waterway are a testament to the engineering nightmare that building the canal posed. A snack will be served during your boat trip, at the end of which you will begin your return journey to Piraeus and the ship. Please note: guests using a wheelchair are advised that they must be accompanied by a paying helper to provide assistance with getting on and off the coach and that wheelchairs must be collapsible/foldable since the coach has neither a ramp nor a lift. Guests using a wheelchair who would like to participate in this tour are requested to contact the Shore Excursions' Desk promptly once they are on board so that arrangements can be made. Spend a few hours on dry land to experience Athens from two very different perspectives: from the lofty heights of Mount Lycabettus, the tallest peak in the vicinity, and then at ground level in the city's sprawling historical quarter, the so-called Plaka District. Your Athenian adventure begins with a round-up of the city's main sights by coach, after which you will head out to the foothills of Mount Lycabettus. KTR10 - PORTO MONTENEGRO

**SPECIALE
EXCURSIE**

Tucked away in a secluded nook of the Gulf of Kotor, the eponymous town sits like a pristine jewel amid limestone cliffs and stunning Mediterranean countryside. Fortifications built during the area's Venetian period surround the town, which also features Porto Montenegro, the region's largest yacht marina development project. Only a short coach ride from the pier and with the nearby mountains forming a scenic backdrop, the supersized marina stretches along the palm-fringed coastline on the site of a former Austro-Hungarian naval shipyard. A relic of those times is a fully restored P-821 submarine called Hero, which you will have a chance to visit along with the co-located museum. The interior of the submarine - complete with weapons, equipment and even personal belongings of crew members - is sure to impress with the ingenuity of its compact design. You will then have some free time to spend on your own doing some sightseeing or going shopping before a drive around the bay en route to the pier and your ship ends the tour. Please note: this tour is unsuitable for guests with walking difficulties or using a wheelchair.
